2. The following is an examiner's statement of reasons for allowance: Applicant's arguments, see page 13, filed 11/17/2003, with respect to claims 35 and 36 have been fully considered and are persuasive. These arguments also apply to claim 51. While the prior art does suggest winding stations, conveyors and resin rings generically which have chambers, resin inlets and formed surfaces, the prior art does not suggest a resin ring with a chamber sealed by an inflatable seal disposed where the fibers enter and leave the chamber. Claims 6-9, 17, 21, 22, 24, 27, 30, 52, and 55 depend from these claims and are allowable for the same reason.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
